

# Your Parking Meter and/or Ticket Has Been Paid By

[www.SmallCarSociety.org](http://www.SmallCarSociety.org)

## ***Thank You For Driving Small!***

The Parking Ticket Relief Program is our way of thanking you for driving small. When someone chooses to drive a small car, we all benefit:

- ✓ Small cars generally make less noise.
- ✓ Fewer resources are used in their production and operation.
- ✓ They take up less space.
- ✓ Small cars are cute and fun to look at.
- ✓ In an accident, small cars are safer because they are less likely to cause significant damage to the passengers in *other* vehicles.
- ✓ A special class of tiny cars, the Neighborhood Electric Vehicles (NEVs), have a greater degree of safety because they are set to have a top speed of 25 MPH.

Because of all these benefits, at the Small Car Society, we believe that small car owners deserve a break when it comes to paying for parking. So, we've established the Parking Ticket Relief Program. As a part of this program, we're lobbying and petitioning local city governments to allow free parking for all small cars. That means no tickets and not having to pay for parking ramp access or parking meters.

Until the day when we reach our goal of free parking for all tiny car owners, the Small Car Society will be selectively paying parking meters and parking tickets as we find them on small cars. We also encourage our members to randomly pay parking meters for small cars. Share the small car love by reusing this flyer to pay someone else's parking meter.
